

You're Invited to the
Harmonic Solution Showcase
Private Seminar

May 24 - 26
Vilvorde Kursuscenter, Vilvordevej 70-2920, Copenhagen

I'm pleased to invite you to a private demonstration, custom tailored for you and your team to cover the exact workflows and products that interest you. We understand that you want to make the most of your time, so you can choose the demonstrations that interest you most.

Collaborative Shared Storage Editing

See how multiple editors can collaboratively share content and storage with project access and bin locking using Omneon MediaGrid and FilmPartners MXFserver.

Multi-Camera Studio Production

Learn how you can use Omneon Spectrum along with S4M ClipJockey to streamline studio recordings and gain flexibility through multicam capture and editing.

Sports Highlights Production

Now you can share content among multiple EVS operators using MediaGrid and its direct support for IPDirector.

Multiscreen Content Delivery

Harmonic is known for high-quality real-time video processing. In this demo, you'll see how the ProStream 4000 and the Rhozet products provide real-time and file-based delivery of any video to web, mobile, and handheld devices in all popular formats.

Contribution Encoding and Quick-Turn Editing

If you gather content from the field, such as news reports, you'll be interested in this demonstration. By combining the Harmonic Ellipse and ProView products with Omneon Spectrum media servers, we can show you how you can gather content from the field and be editing within 30 seconds of live events.

Media Management & Transcoding

From Omneon Media Application Server and ProXplore to Rhozet WFS, QCS and Carbon Coder, Harmonic provides integrated systems for automatically managing and processing

content to streamline workflows and lower the costs of producing media.

Distribution & Delivery Solutions

Harmonic encoders are used by almost every major television and media delivery company. Here's your chance to see the latest in delivery function collapse and high-quality low-bitrate encoding.

Harmonic Corporate Overview

If you'd like an update on Harmonic, Inc., our position in the market, and our expanded product and service offerings, you can request a presentation that precisely covers your interests.

We expect available times to fill quickly so please contact VIDAB at info@vidab.se soon to set up a convenient time for your seminar. We'll be happy to build an agenda for you that fits your time and content requirements.
